

# Are you thinking of treating your animals for worms?

At Bandon Co-op we now provide rapid faecal worm tests in-house with same day results!

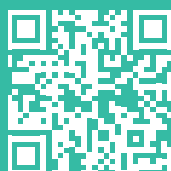

## So, what are the benefits of testing dung samples regularly?

- Save Time**  
Handle livestock only when needed, giving you back more time.
- Save Money**  
Test dung first, and only treat animals with known burdens.
- Thriving Animals**  
Provides key insights to support a healthy and happy farm.
- Reduce Resistance**  
Avoid blanket dosing and prevent the build up of resistance.
- Parasite Control**  
Follow an approved animal health plan from your local vet.
- Targeted Treatment**  
Correct timing of treatment provides optimal results.
