GOOD TO KNOW!

- ★ LED Christmas lights are 5 to 10 times more economical than the traditional Christmas light bulbs.
- ★ Many of our Christmas lights come with a timer, which is a time switch that controls when the lights go on and off. This prevents energy wastage.
- ★ The energy usage of Christmas lights for one month is comparable with watching television for 8 hours a day or one cycle of washing.
- ★ Also, often when we switch on our Christmas lights, we don't put any additional lighting on.

Ultrabright Plug-in Waterfall Lights
Indoor or outdoor, extra low voltage, multi action (including static), large LEDs
